

Atty. Dkt. No. 040447-0255

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Hidehiko FUJIWARA, et al.
Title: COMMUNICATION SYSTEM WITH FUNCTION OF
ENCIPHERMENT/DECIPHERMENT BY AGENCY
Appl. No.: 10/720,129
Filing Date: 11/25/2003
Examiner: Sheikh, Ayaz R.
Art Unit: 2131

INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR §1.56

Mail Stop PATENT APPLICATION
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Submitted herewith on Form PTO/SB/08 is a listing of documents known to Applicants in order to comply with Applicants' duty of disclosure pursuant to 37 CFR §1.56.

A copy of each non-U.S. patent document and each non-patent document is being submitted to comply with the provisions of 37 CFR §1.97 and §1.98.

The submission of any document herewith, which is not a statutory bar, is not intended as an admission that such document constitutes prior art against the claims of the present application or that such document is considered material to patentability as defined in 37 CFR §1.56(b). Applicants do not waive any rights to take any action which would be appropriate to antedate or otherwise remove as a competent reference any document which is determined to be a *prima facie* art reference against the claims of the present application.

TIMING OF THE DISCLOSURE

The listed documents are being submitted in compliance with 37 CFR §1.97(b), within three (3) months of the mailing date of a communication from a foreign office.

RELEVANCE OF EACH DOCUMENT

As a statement of relevance, a translation of a portion of a Japanese Office Action that issued January 6, 2006 with respect to a counterpart Japanese patent application is provided below.

Notes (for cited documents, see List of cited documents)

Regarding claims 1, 2, 4 and 6/cited documents 1 and 2

Cited document 1 describes encryption and decryption on a proxy server (see especially <Figure 12> and paragraphs <0007> – <0009>).

Furthermore, cited document 2 describes performing telephone communication via a firewall device, and there is no remarkable difficulty in configuring the invention described in cited document 1 to perform telephone communication.

Regarding claims 3, 5 and 7/cited documents 1 and 2

Setting whether or not to perform encryption according to the location of a slave device is a design matter which can be suitably determined by a person skilled in the art.

List of Cited Documents

1. Unexamined Patent Application Publication 2002-244557

2. Unexamined Patent Application Publication 2000-138756

Any document listed on the attached PTO/SB/08 was cited as being relevant during the prosecution of the corresponding Japanese application. A copy of the Japanese Search Report is attached setting forth the portion of each document considered relevant by the examiner. An English-language counterpart of the foreign-language documents has not been provided. The absence of a translation or an English-language counterpart document does not relieve the PTO from its duty to consider any submitted document (37 CFR §1.98 and MPEP§609).

Applicants respectfully request that each listed document be considered by the Examiner and be made of record in the present application and that an initialed copy of Form PTO/SB/08 be returned in accordance with MPEP §609.

STATEMENT

The undersigned hereby states in accordance with 37 CFR §1.97(e)(1) that each item of information contained in this information disclosure statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three (3) months prior to filing of this Statement.

Although Applicant believes that no fee is required for this Request, the Commissioner is hereby authorized to charge any additional fees which may be required for this Request to Deposit Account No. 19-0741.

Respectfully submitted,

Date: February 23, 2006
